

# Official 2020 SkillsUSA North Carolina Contest List

Please refer to the following list of contests that will be offered at the SkillsUSA North Carolina State Conference. In the left-hand column, an “N” signifies that the contest advances to the national level; an “S” signifies that the contest ends at the state level and has no national competition. The next column provides the contest name. The third column states the size of the team; if the column is blank, it is an individual contest. The last column provides the number of competitors/teams that each advisor/school is allowed to have per contest. **\*Where the limit is identified as “per advisor”, this is interpreted as “per registered advisor”.** Some contests have limits based off of the number of instructors registered in that trade area. Additional contest information will be available on [www.skillsusanc.org](http://www.skillsusanc.org) . New contests or changes to contest numbers are identified in **yellow**.
